New templates!

We always strive to listen to our *bookusers* - today is no exception!

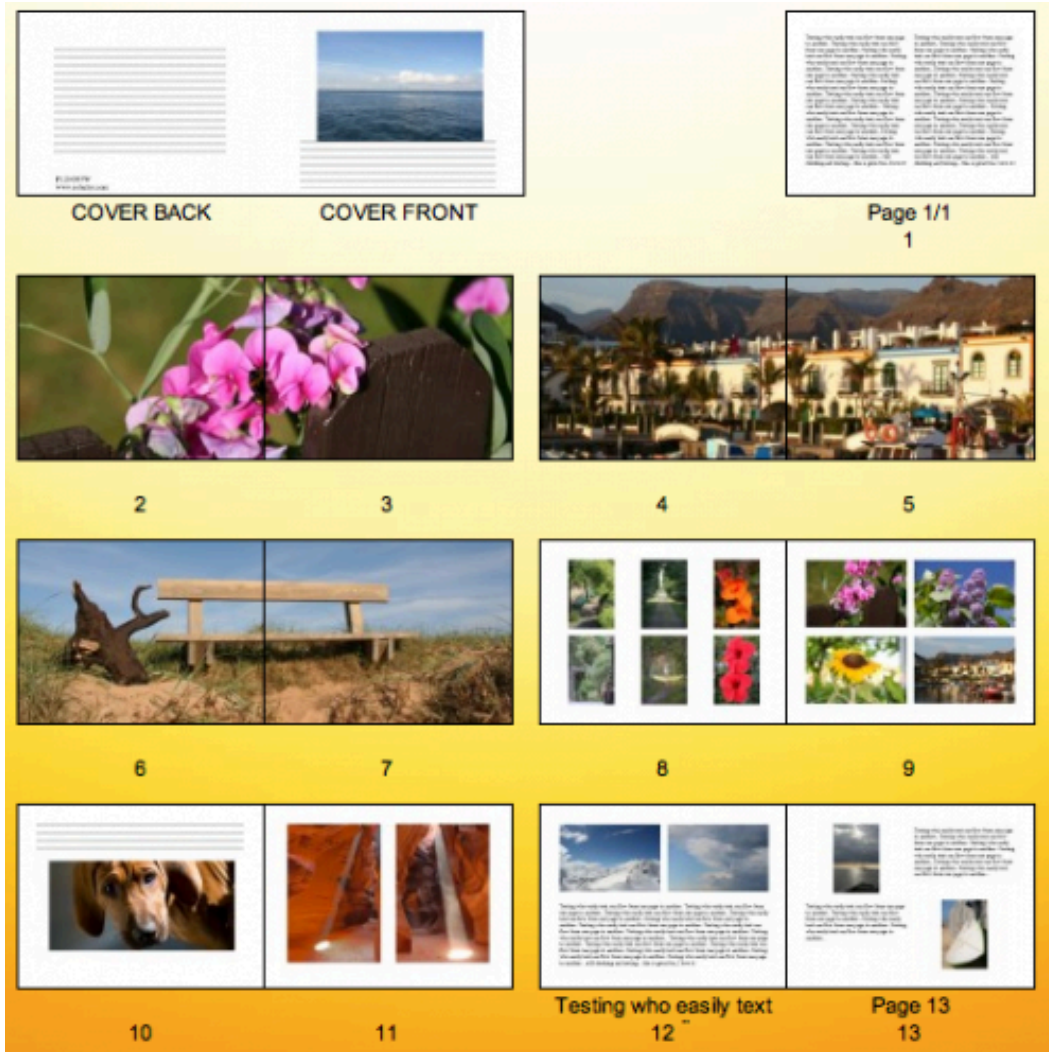

From now on **you can choose between 20-22 different templates** depending on which book size you choose.

On the right hand side you can see some of the templates and below you'll find some examples from the [Solentro](#) system. Of course, you can still make traditional books where the text automatically flows over several pages such as a novel or your own poetry collection.

Just as before, the "*horizontal lines*" shows where you can add text and the "*vertical lines coming from the sun*" shows where you can add your photos and/or illustrations. **Always use the PREVIEW-mode when viewing your book.** The editor/toolbar is a "*tool for writing*", you must click on PREVIEW to be able to see how your book will be.

When you log in to [Solentro](#) the default template is text-based - you need to *drag n drop* new templates if you wish to make e.g. a photo book - **good luck!**

**Take care!
